

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, May 15, 2008 – 0530 MDT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Moderate (290 new fires)
 New large fires: 4 (*)
 Large fires contained: 1
 Uncontained large fires: 9
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 3
 Fire Use Teams committed: 0

** Uncontained large fires does not include WFU or confine/contain incidents. **

Southern Area (PL 2)

New fires: 63
 New large fires: 3
 Uncontained large fires: 6
 Type 2 IMTs committed: 1

Brevard Complex (10 fires), Florida DOF. Florida IMT 2 (Beauchamp). Complex includes previously reported Osage fire. Brevard County, FL. Southern rough. Moderate fire behavior. Numerous residences threatened.

Mustang Corner, Everglades NP. Fifteen miles southwest of Kendall, FL. Grass. Extreme rates of spread. Cultural sites threatened.

Mud Swamp New River, National Forests in Florida. Five miles northeast of Sumatra, FL. Southern rough. No further information received.

East Tucker, Seminole Agency, BIA. Sixteen miles southwest of Okeechobee, FL. Southern Rough. Extreme fire behavior. Residences threatened.

Pasture, Florida DOF. One mile north of Eastpoint, FL. Southern rough. Long range spotting. Residences threatened.

LPGA, Florida DOF. Six miles west of Daytona Beach, FL. Southern rough. Minimal fire activity. Residences threatened.

Predictive Services Discussion: In Florida, there will be a gradual increase in humidity the next couple of days. The Southwest will be unsettled and cool today with scattered showers over portions of New Mexico. California will be hot and dry the next few days. Gusty winds are expected today over portions of the north as well as the mountains of southern California.

Attempting a Frontal Assault on a Fire

Attempting a frontal assault on a fire is recognized as Watchout Situation #10 and is a potentially dangerous tactic.

- If your tactics include a frontal assault, the following checklist must be adequately addressed before engaging the fire:
 - Has the fire been scouted and sized up? Who will scout and size up a fire and what are they looking for?
 - Is your position defensible? List what makes a firefighter's position defensible. (Anchor points, safety zones, escape routes, etc.)
 - Are escape routes and safety zones adequate? Review what constitutes an adequate safety zone and escape route.
 - Do you have an anchor point? How would you establish an anchor point for a frontal assault on a fire?

- In order to reduce the risks, reassess your tactics, post lookouts, identify situations in which firefighters may be enticed to attempt frontal assault on a fire. Review why this may or may not be a good idea.
